NEW Eco-Colour Resist-a-Flame® Noticeboards

You can't put a price on safety or peace of mind
Our new Eco-Colour® boards offer an affordable
solution to fire resistant noticeboards.

Eco-Colour® pinnable board offers no powdery
residue and is made from 'Recycled' material

with both 'Fire Resistant' (to BS EN 1350 Class B)
and 'Acoustic Properties' - making it ideal for use
within busy public spaces, learning and office
environments.

Fire resistant - BS EN 13501 Class B
Made from recycled materials
Acoustic properties - up to NRC 0.8
Self-coloured pinnable core
Choice of 11 colours - so far!

ECO-COLOUR® BOARDS COLOUR RANGE

Writeon®

1. Function over form

make a product useful, above all else

2. Empathy and focus

truly understand the customers needs

3. Aim for 'WOW'

the "wow" is shorthand for a powerful, visceral reaction

4. 'Form and function are one'

form and function should be one, joined in a spiritual union

5. Deconstructivism

destroying all traditions and rebuilding things in your own vision

6. Simplicity

strip things down to their essential purpose

WriteOn® Colour Edged Whiteboards

Attractive frameless design with tough ABS colour edging.

Adds a modern accent to an everyday product.

Mounts flush to the wall with simple through the board fixings.

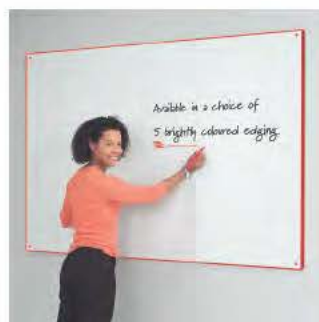

Edged in a choice of 6 bright colours with matching screw caps.

Double sided whiteboard, one side plain.

Faint Guideline® grid to aid writing on the reverse.

Low profile 2mm edging.

Mount white units side by side virtually seamlessly - see over.

TRAPEASE

Trapease® Paper Hanging System

Ingenious rail for hanging paper or card.

Trapease is so simple to use, simply insert a sheet of paper and it is held in place with specially designed rollers.

Lift the sheet of paper and it is released.

Ideal for training rooms, brainstorming sessions, hanging artwork, maps and charts.

Various thicknesses of material can be held side by side.

Available in three standard lengths, and can be butted end to end to create longer runs.

Easy snap fit or adhesive strip mounting.

PUSH UP TO LOCATE AND HANG

PUSH UP

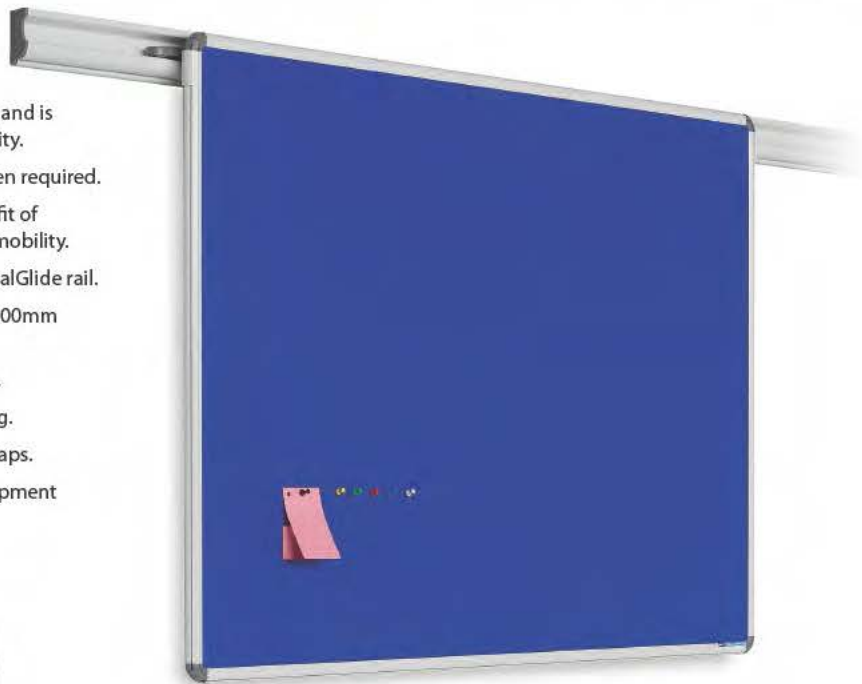

.... AND OVER TO RELEASE - SIMPLE!

BusyRail® Deluxe

Premium quality rail system is packed with user friendly features and is consistently specified for aesthetic appeal and long term durability. Equipment locates securely on the rail, yet glides effortlessly when required. Whiteboard and noticeboard products have the additional benefit of small guide wheels attached at the lower edge for even greater mobility. Components are adaptable for use with both MonoGlide and DualGlide rail. The recommended installation height for rail is approx. 2000 - 2100mm from the floor (or in line with the top of the door frame). Rails are manufactured from strong coated aluminium extrusion. Ingenious integral paper hanging facility - ideal for brainstorming. Supplied in 2400mm lengths complete with all fixings and end caps. Optional moulded corner pieces which are radiused so that equipment can easily be moved round and across inside corners.

MonoGlide 2.4m Rail

A single rail - suitable for simple installations. Items cannot pass on this rail.

MonoGlide			
Size	L	2400mm

Shield Resist-a-Flame® Noticeboards

Aluminium framed noticeboards with a distinctive contemporary styling.

Available in satin Aluminium, 5 attractive frame colours or new Light Oak effect frames.

A large range of 20 board colours.

Can be mounted portrait or landscape.

Concealed corner fixings.

Core complies with EN13501-1 Class B for Fire Retardancy - see page 49.

Suitable for mounting in corridors.

Multi-Bank Eco-Colour®

Noticeboard with separated pinnable areas that can be specified with individual colours.

Combine Aluminium or White frame with one of the 11 Eco-Colour® options.

For multi-coloured units, just add the colour codes in sequence - ie **SMB92/AL/PU/OR/AG/RS** for Multi-Bank unit featured.

SINGLE DOOR WOVEN CLOTH

European reaction to fire test

Resist-a-Flame[®]
FIRE RESISTANT NOTICEBOARDS

Resist-a-Flame[®] noticeboard construction has been tested and classified to European 'Reaction to Fire' test standard and is suitable for use within sensitive public areas such as corridors, stairways and entrances.

The cloth and pinboard core assembly is classified as B according to BS EN 13501-1.

This identifies that these products can be used in the same areas as products tested to BS476 Parts 6 & 7 and classified as 0.

Lockable models have clear covers tested separately to BS476 Part 7 and classified as Class 1. Made in UK.

SINGLE DOOR ECO-COLOUR[®]

DOUBLE DOOR ECO-COLOUR[®]

DOUBLE DOOR WOVEN CLOTH

Aluminium Framed Noticeboards with Fire Retardant Cloth

These aluminium framed noticeboards use the same attractive display stitchbond fabric as our Resist-a-Flame® range but with a standard fibreboard core.

The fabric is individually tested to BS5867 Part 2 2008; Type B curtains, drapes and blinds.

These boards are for use in non-sensitive areas.

For all other areas i.e. fire escapes, stairwells, lobbies etc. see **Resist-a-Flame®** products.

ECO-COLOUR BOARD COLOURS

Multi-panel covered noticeboard.

Each panel is supplied with its own lockable door (matching keys) and can be individually coloured.

Available in three panel sizes, to accommodate 4, 9 or 12 sheets of A4 paper per panel.

Banked in 1, 2, 3 or 4 panels.

Lockable covers lift off to easily change the material on display.

Supplied fully assembled and ready to mount.

Resist-a-Flame®
FIRE RESISTANT NOTICEBOARDS

Resist-a-Flame® noticeboard construction has been tested and classified to European 'Reaction to Fire' test standard and is suitable for use within sensitive public areas such as corridors, stairways and entrances.

The cloth and pinboard core assembly is classified as B according to BS EN 13501-1.

This identifies that these products can be used in the same areas as products tested to BS476 Parts 6 & 7 and classified as 0.

Lockable models have clear covers tested separately to BS476 Part 7 and classified as Class 1. Made in UK.

SHOWPOINT

ShowPoint® Sign Frame Signage System

Economical and contemporary DIY sign system.

Create signs in-house and print on any A4 or A3 printer via your PC or Mac; saving on expensive outsourced print services.

A choice of five sizes to take A6, A5, A4, A3, & 1/2A4 inserts.

All signs can be mounted portrait or landscape and can be personalised with a choice of brightly coloured decor strips.

For corridor applications there is a double sided flag sign supplied complete with heavy duty mounting bracket.

All fixings provided.

Flag display

This 1/2A4 size double sided unit protrudes at right angles to the wall, therefore ideal for identifying rooms in corridors.

QuickSign Snap Frame Signage System

Low cost signage solution to take 'A' sized inserts.

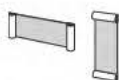

Economical sign holders that operate like a snap poster frame.

Easy to mount and simple to use, QuickSign is available in 5 convenient sizes all being derivatives of A4.

Enables you to create your own signage in-house on any standard A4 printer.

QuickSign can be mounted on curved walls or circular columns, due to the flexible backing plate.

These popular signs can be mounted in portrait or landscape orientation.

ShowPoint® Wall Sign System

A stylish curved wall signage system to take printed paper sign inserts.

This versatile signage system features an attractive aluminium curved profile with contrasting end caps.

Available in a range of 28 size variants. 4 depths 68mm, 90mm, 120mm and 162mm, to suit the amount and/or size of lettering to be displayed.

The printed inserts are easy to install and change with the special suction tool provided.

Each sign insert lays flat against its protective clear cover due to the curvature of the design.

Each unit is easily mounted by use of their self adhesive backing strips.

SHOW•POINT

ShowPoint® 68mm high

Guide to producing the Showpoint® wall sign inserts

1. Create a document to the size of the 'Insert' required.
2. Type your information into the document starting with the longest line of text.
3. Ensure that this fits comfortably within the document size.
4. Repeat with the same size text for all the other inserts to achieve a consistent look.
5. To print, ensure the correct printer has been chosen.
 Inserts up to 297mm wide should fit on an A4 printer.
 Inserts up to 420mm wide should fit on an A3 printer.
 Inserts over these widths will require printing on a large format printer.

ShowPoint® 90mm high

90mm high signs in a range of 8 different lengths from 156 to 506mm.

OnBoard® Expandable Display Systems

Due to its modular design, the user can reconfigure and extend the display system to meet the application.

Standard 600 x 900mm panels can be mounted portrait or landscape on to the 1800mm pole using C clips provided.

Components are available separately to extend the system at any point in the future.

Available with black or grey framework.

Large range of 14 loop nylon colours.

All panels are double sided with a choice of loop nylon covering which accepts Velcro®, BusyFix® and pins.

Header panels have loop nylon fabric on one side and black on reverse for optional personalising.

BusyScreen® Classic Triple Safety Set

This popular mobile triple screen set is supplied with two way linking strips and castor feet; giving maximum safety and mobility.

Linking strips are easily removed to enable the screens to be stacked together for storage.

Choose from 3 popular screen heights and a wide range of fabric options.

Woven cloths are traditional and hardwearing whilst loop nylon has the advantage of being Velcro® friendly.

Panels are supplied with a choice of Grey or Black trim.

Screens include 30mm black borders on all 4 sides except 2400mm model which has 50mm borders.													

Eyeline® Design Manual Screens

Unique patented click-on/click-off channel fix mounting bracket system is very simple to use, with smaller screens being easily fitted by one person.

Contemporary white triangular case appears smaller than similar sized square cased screens.

Brackets can be placed at virtually any length along the screen case which is ideal when mounting to studwork walls or avoiding wires/pipes.

Both wall and ceiling brackets are included, which are hidden from view when installed.

Black borders to all 4 sides enhance the projected image, providing a professional presentation.

Additional black cloth to the top of video 4:3 and widescreen 16:9 models for optimal viewing height.

Optional extension brackets are available for clearing an obstruction or keystone adjustment.

Eyeline® Design Key Features

- ✓ Simple to use mounting
- ✓ Contemporary casing
- ✓ Wall and ceiling brackets included
- ✓ Professional finish black borders
- ✓ Extension brackets available

Eyeline® Pro Channel Fix Electric Screens

Professional projection screen for operation by IR remote, 12v trigger or central control system

High quality matte white screen material providing a crisp flat viewing surface.

The view area is framed by 50mm black borders which enhance the image for truly stunning results.

For optimal viewing height, this screen also features an extended black drop.

The screen comes as standard with an infra-red (IR) remote control and IR extension cable for use if the case sensor is obstructed.

12v trigger with a 10m cable for operation when the projector is powered on/off.

RJ11 (6P6C) cable for connection to a RS232 central control system.

Manual override button is also built in underneath the screen for fail safe operation without remote.

Mount to a wall or ceiling using channel fix brackets which can be moved to best fixing points, ie. studs.

No electrical installation required, supplied with a 2.7m cable and plug.

Optional wall switch connects to RJ11 socket.

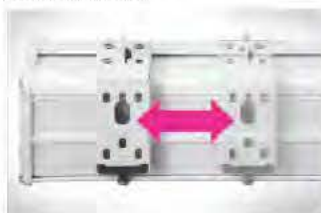

Eyeline® Pro Key Features

- ✓ High quality matte screen
- ✓ Professional finish black borders
- ✓ Channel fix mounting
- ✓ Variable connectivity
- ✓ No electrical installation required

Eyeline® Rollfix In-Ceiling Recess Frame

Convert your Rollfix® screens into a discreet in-ceiling projection screen through the use of a recess frame.

Designed for use in rooms with suspended ceilings, where the case needs to be hidden from view or where wall mounting is not a suitable option.

The recess frame has a sleek white case design that protects the screen and remains almost completely hidden from view when not in use.

Perfect for a professional and discreet installation, ideal for boardroom and hospitality environments.

EYeLINE

Recess Frame Key Features

- ✓ Enables Eyeline Rollfix screen to be mounted discreetly into your ceiling
- ✓ Sleek case design
- ✓ Ideal for boardroom and hospitality installations

1

Select correct size Recess Frame for use with your chosen Rollfix screen (see table).

Simple 3 step guide for in-ceiling conversion

2

Install your Recess Frame into the suspended ceiling

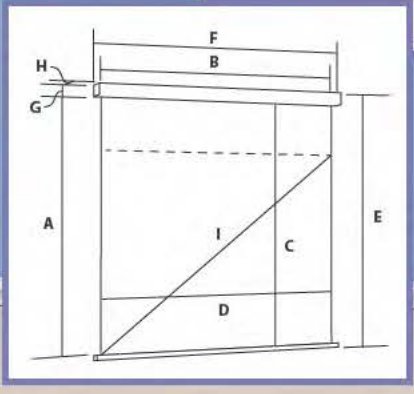

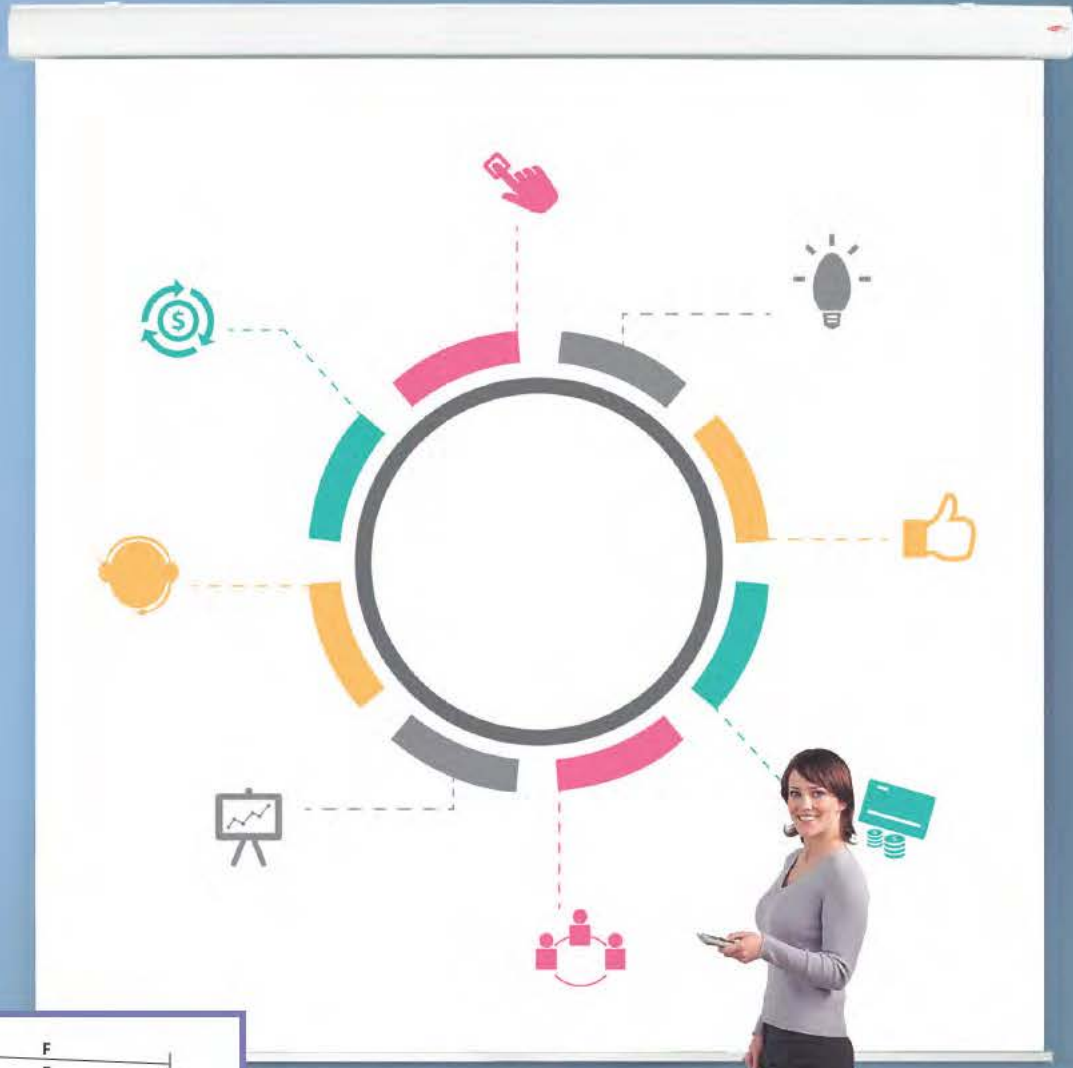

3

Insert your Eyeline Rollfix® screen within the Recess Frame and complete the electrical installation

Frame Screens Key Features

- ✓ Semi permanent
- ✓ Ideal for home cinema or office use
- ✓ Velvet covered aluminium frame
- ✓ Superior flat surface
- ✓ Available in a wide range of sizes

80mm profile

Eyeline® Frame Screens

EYELINE

Semi permanent, always in view screens for dedicated areas such as board rooms, conference rooms, training and home cinema rooms.

Velvet covered aluminium frame is 8cm wide and supplied in sections to fix together with ease.

The screen fabric is tensioned and fitted to the rigid frame giving a superior flat surface.

Velvet covered screens have the benefit of a non-reflective, light absorbing surface that increases the perceived contrast of the image.

Available in a wide range of sizes in video 4:3, widescreen 16:9 and 16:10 formats.

Bespoke screens

A wider range of fixed frame screens for front and rear projection are available - please contact us for further details.

SPREAD LOAD TESTED

LOCKABLE WHEELS

DURABLE RUNNERS AND TRAYS

ColourBox® Quality Features

ColourBox® furniture products are made in the UK to the highest specifications and come with a 10 year warranty against manufacturing defects.

Each model has been spread load tested to take 100kg.

Most units are available on lockable heavy duty wheels with rubber tyres for maximum strength.

All tray storage units use Granelles® plastic runners, designed to complement the large range of Granelles® shallow or deep trays in 20 different colours.

A versatile range of storage furniture

ColourBox® Furniture offers you a new and exciting range of vibrant coloured storage furniture to brighten up your teaching environment, domestic or office space.

We aim to offer you top quality products with the added ingredient of a new and unique selection of contemporary colour finishes to complement the latest trends in decor.

- Made to order to your requirements
- Unique choice of colours and combinations
- Quality - Made to last 10 year Guarantee

- Free direct delivery to most UK mainland addresses
- No assembly required
- Products tested by FIRA

Ordering is simple

- 1 Choose the model of ColourBox® Furniture that best suits your requirements
- 2 Consider if you need a lockable cabinet
- 3 Choose the cabinet colour that best suits your environment, make a note of the colour code
- 4 Choose the tray or tub colour option to compliment your cabinet, add that code

Example

ColourBox® 4 column, shallow tray mobile storage with lockable doors in Tomato colour with 24 Translucent trays and doors

Product code + Box colour + Tray colour
CS64D + Tomato + Translucent

Order code
CS64D/TB/TR

LOCKABLE DOORS

Lockable door options for most models prevent casual interference. Locks are supplied with a set of 2 keys, all keys are keyed alike.

COLOUR MATCHED EDGING

All units are manufactured using 18mm MFC throughout and with colour matched ABS edging.

TUB OR BASKET STORAGE

The Tub storage range has cubby holes for use with general purpose plastic tubs. These can also be purchased with traditional wicker baskets or without tubs to suit.

SAFETY HINGES

All lockable units have quality safety hinges to prevent sagging.
